

Sypialnia
ok. 9,93 m²

The floor plan shows an apartment with three main rooms. The bedroom is at the top, colored light green. To its left is a bathroom, colored light blue. Below the bedroom and to the right of the bathroom is a large living area, colored light orange, which includes a kitchen annex. The living area is the largest room. The layout is irregular with several protrusions and recesses. Door swings are indicated by quarter-circle arcs: one from the bedroom into the living area, one from the bathroom into the living area, and one from the outside into the living area at the bottom left. Windows are represented by vertical lines with small breaks: one on the right wall of the bedroom, one on the right wall of the living area, and one on the left wall of the living area.
